

## NEW & EASIER APPLICATION METHOD

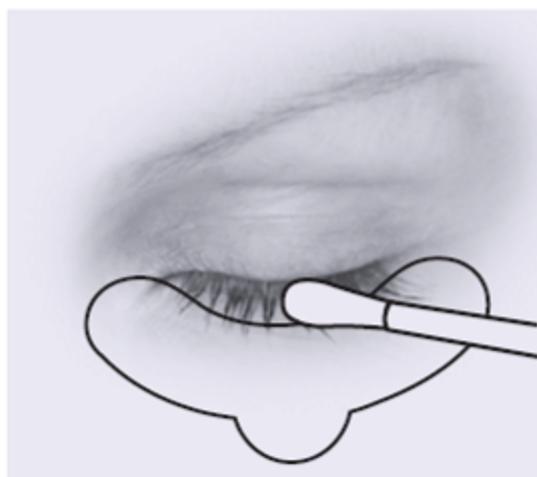

- 1 Cleanse your eyelashes thoroughly with a non-oily cleanser in order to remove any make-up and natural oils. **Contact lens wearers should remove their lenses.**
- 2 Before dyeing, apply a small amount of thick skin cream or petroleum jelly under the eyes, carefully avoiding the lashes, in order to keep the eye protection papers in place and keep the dye off the skin.

**DO NOT MIX** the Eyelash Colour Solution 1 and the Eyelash Colour Gel 2, but follow carefully Steps 3 to 5.

- 3 Dip the tip of a cotton bud into the **Eyelash Colour Solution 1** and apply several coats onto the eyelashes, so that they are soaked through. Leave on for **1 minute** and **WITHOUT RINSING OFF** proceed to Step 4.

**Hint:** the longer the **Solution 1** is left on, the darker the colour will be. In the case of the dark brown shade, shorten or lengthen the application time of the Solution 1 depending on the darkness desired.

- 4 Apply about 1 cm of **Eyelash Colour Gel 2** onto the provided eyelash brush, working it into the bristles. Then brush through the lashes.

- 5 Wait for **1 minute**, then rinse off with some shampoo or soap or with wet cotton pads. **Warning:** Avoid contact of the **Eyelash Colour Gel 2** with the skin, as the dye could stain for 2-3 days. You may need to use gloves. Should you need to remove stains from the skin, dip the tip of a **CLEAN** cotton bud into the **Eyelash Colour Solution 1** and rub on the stains.

If the colour is not dark enough, the process can be repeated once.

**Warning:** **Eyelash Colour Gel 2** contains silver nitrate. Avoid contact with eyes and contact lenses. If the product comes into contact with the eye, rinse the eyes immediately with cold water. Keep away from children.

### HINT & TIPS

Remember **Colorsport 30 Day Mascara** is a hair dye. Always protect clothes, fabric and furnishings during the dyeing process.

### Eyebrows

The product is also suitable for eyebrows. To apply to eyebrows, use the same procedure as for the eyelashes but leave on for a shorter time. Do not use on eyebrows that have been plucked within the previous 72 hours.

### For Men

This product is also suitable for men to use on their eyelashes and eyebrows.

### If Colorsport 30 Day Mascara Has Not Worked

If your lashes remain uncoloured it is likely to be due to one of the following reasons:

- The hair was not totally clean
- The product was not applied correctly
- The **Eyelash Colour Gel 2** has come into direct contact with the **Eyelash Colour Solution 1** before application.

## NOTES

- Direct contact between **Eyelash Colour Solution 1** and **Eyelash Colour Gel 2** is to be avoided, or else the gel will become unusable.
- Close the bottle and tube securely after use, and store in a cool, dark place.
- Rinse the eyelash brush thoroughly and allow to dry.
- Contact with light can change the appearance of the liquid. This does not affect the quality.
